Professional Summary

Web developer with freelance experience in building web applications using modern frameworks and technologies. Proficient in both front-end and back-end development with a strong understanding of database management and authentication systems.

Skills

- **Front-end:** React JS, Tailwind CSS, Next JS, Typescript
- **Back-end:** Next JS, Node JS, Typescript, fastAPI
- **Database:** Firebase, Mongo DB, Graphql
- **Others :** Three Js, GSAP, Framer Motion, Figma, Prisma

Experience

Freelance Web Developer **Eazweb –** Remote (Oct. 2023 –Present)

Developed custom websites and web applications using Next.js, React, and Node.js, improving client SEO and user engagement; managed projects end-to-end, ensuring timely delivery and quality standards.

Recent contracts

- **Rising Ahead [Link] -** (Oct 2025 – Feb 2026)
  Rethemed and deployed 3 open-Source software (**Zammad**, **Discourse** and **Outline**) and developed 2 microservices for their banking dashboard software using react and fastapi.

- **Buttercut AI [Link] -** (Sept 2025 – Oct 2025)
  Rethemed the whole website and integrated dubbing, auth and optimized the subtitling workflow on their video to remove the unnecessary lag and glitches that caused mismatch in audio and subtitles.

Projects

Glasses TRYON – [Link]

Tech Stack used – Next JS, Google Mediapipe, Web Workers, Typescript, Three JS

- Developed a smooth and balanced AR Tryon service for glasses using Google media pipe and three js.
- Used advanced concepts like Vectors, **Multi-threading** and other algorithms to get **Enterprise level quality**
- Designed and developed this whole website using nextjs and gsap for immersive experience.

Eazweb- [Link]

Tech Stack used – Next JS, Tailwind CSS, GSAP, Framer Motion

- Gave a new look to our brand's portfolio using Nextjs, Framer Motion and Tailwind CSS
- Previously It used to look like this, it is also made by me using the same tech stack.
